COOL 'HOOD CHAMPS

Local Climate Action Training

Learn how to climate-proof your neighbourhood and empower others to get involved in this hands-on three-workshop series.

WORKSHOP 1: NEIGHBOURHOOD WALKABOUT WHAT DOES CLIMATE CHANGE MEAN TO YOUR NEIGHBOURHOOD?

This workshop will review the science on climate change and regional climate projections for Metro Vancouver. You will then apply this to your neighbourhood and explore its greatest needs using the Citizens' Coolkit.

WORKSHOP 2: INTERACTIVE MAPPING & VISIONING A GREENER, SAFER, FRIENDLIER NEIGHBOURHOOD

Based on the needs identified in Workshop 1, you will explore and prioritize practical local solutions via fun Coolkit mapping and visioning exercises.

WORKSHOP 3: BECOME A CLIMATE CHAMPION CRAFTING AN ACTION PLAN & EMPOWERING OTHERS

Guided by your friendly workshop instructors, you will craft, critique and refine your action plans for neighbourhood climate action. Finally, gain practical skills to become a climate champion and inspire your neighbours!

COOL 'HOOD CHAMPS COMMUNITY EARTH DAY TREE-PLANTING EVENT (APRIL 23)

Celebrate your success! Begin taking action and bond with your neighbours through a tree-planting event. Meet and connect with our Champs Community!
